INFORMATION FOR CONTRIBUTORS

Polish Journal of Soil Science is published biannually. Only original papers (not printed in any other publication) concerning investigations in soil sciences, agricultural chemistry, soil biology, soil technology, soil protection, and soil environmental functions will be published in the journal. The papers are published only in English. All the information about organization of manuscript and format of figures and tables may be found at www.pjss.umcs.pl.

Manuscripts should be submitted via web-platform: www.pjss.umcs.pl

INFORMATION FOR REVIEWERS

Polish Journal of Soil Science is a peer-review journal. We are very grateful to our reviewers for their efforts to ensure the quality of the journal. Each reviewer must sign up a declaration about the lack of conflict of interest between him/her and the author(s). Reviews and the materials contained in the manuscripts are confidential.

Address paper and all correspondence (incl. orders) to Editorial Office:
